

# Sharing Health Records to Ensure Better Care

Local health and social care services, doctors, hospitals and hospices are working together to improve how your information is shared to support the decisions they make about your care.

In Winter 2019 we will be creating a Cheshire Care Record for everyone in the county. You don't have to do anything, but if for any reason, you do not want a shared care record, you can opt out of this scheme via your GP or social worker.

For more information on your Cheshire Care Record, please contact the CCR Systems Manager on:
